A High-Deductible Health Plan

Texas

It goes without saying that your health is important, and it's also important to choose a health insurance company you can rely on. For many years, individuals and their families have relied on the health insurance products designed, administered, and marketed by American Medical Security (AMS).

We realize that one health insurance plan doesn't suit everybody's needs, so we designed a portfolio of insurance plans to choose from. We're confident you'll find the insurance plan and options that fit your needs and budget.

But that's not all. We add unparalleled service to our insurance plans. For example, a helpful customer service representative will answer the phone when you call our home office — 24 hours a day, 365 days a year. You won't find any electronic phone menus to work your way through.

We also provide you with a toll-free number you can call to speak to a registered nurse*. These nurses will give you medical information 24 hours a day, 365 days a year.

Customers also have access to the AMS Health Discovery Center*. This interactive online resource provides health and pharmaceutical information that may help you manage your health care.

When you add our service to the products we market, you have a company you can rely on for your health insurance needs — a company that incorporates the small-town values of its home town of Green Bay, Wis., into its everyday business practices.

As you examine the benefits, features, and services described in this brochure with your professional agent, we're confident you'll be reassured that your health insurance needs will be in competent hands. We invite you to join the AMS family of satisfied customers.

* These noninsurance services are provided through contractual agreements with third parties and are not administered or underwritten by us. These services are available to all AMS customers and residents of Texas.

AN ALTERNATIVE APPROACH TO FUNDING HEALTH-CARE COSTS FOR INDIVIDUALS

The cost for health care and health insurance has risen in recent years. As a result, individuals are looking for solutions. And AMS has a health insurance solution that can help individuals and families.

Many individuals may prefer a health insurance plan with lower premiums. They want protection from financial losses that may result from a hospitalization or other catastrophic event but are willing to pay expenses for less serious medical services. Combining a tax-preferred federal health savings account (HSA)* with a qualified high-deductible health plan (HDHP) may be the answer.

What is an HSA?

An HSA is a federal tax-exempt savings account set up at a financial institution to save money exclusively for payment of qualified medical expenses.

Any qualified individual who has an HDHP that meets government requirements may open an HSA. MedOne HSAvings is designed to meet these requirements.**

What is an HDHP?

HDHPs must meet federal guidelines. Both deductible and out-of-pocket maximum amounts are determined by the federal government. These amounts follow the Department of Labor's Consumer Price Index and may change annually.

Those with family coverage meet a family deductible, and eligible expenses for all family members contribute to the deductible. When the family calendar-year deductible is met by any combination of family members, the insurance plan pays eligible benefits for the entire family.

HDHPs also have maximum limits on the annual out-of-pocket amounts for covered expenses. The amounts paid to meet the deductible are applied to the maximum out-of-pocket amounts.

How An HSA Works

The following diagram illustrates the benefits of an HSA.

Health Plan with an HSA

When an HSA is used together with an HDHP, health-care expense dollars are split between health insurance and the HSA. The HSA owner decides the amount to deposit in the HSA. At the end of the year, any money that hasn't been used can remain in the HSA for the following year's medical expenses.

Health Plan without an HSA

Without an HSA, health-care expense dollars go entirely to health insurance.

Some Advantages for Customers

HSA contributions are tax deductible up to allowable limits. The amount of HSA money spent on qualified medical expenses can be excluded on tax returns.

Any unused money at the end of the plan year can be retained in the HSA for the following year.

MEDONE HSAvings ELIGIBILITY

Eligible applicants must be members in good standing of the Taxpayers Network Inc. (TNI) Association and age 18 or over and under age 65. All applicants must meet the insurer's underwriting requirements and be U.S. citizens or be in the U.S. by a valid permanent visa or green card. A copy of the visa or green card is required. Your dependents who wish to have coverage must be a lawful spouse and/or unmarried child to age 25 or a dependent grandchild of the applicant who is not yet age 25.

* HSAs are not insurance.

** Both the family and individual deductible plans have been designed to meet the HSA high deductible health plan requirements of Federal Law (26 U.S.C. Sec 223). This law contains several requirements regarding the tax deductibility of HSAs. Please consult with your tax and legal advisors to determine whether your HSA will qualify as tax deductible.

Insurance plans provide only limited benefits for services provided by non-network providers. Benefits received from non-network providers are subject to a separate non-network deductible and coinsurance limit. The Classic MedOne HSAVings insurance plan (non-network) is available. Please see your agent for details.

DEDUCTIBLE*

The deductible is the amount of covered expenses you pay each calendar year before benefits are paid under the Policy.

COINSURANCE

The coinsurance is the insurance plan's level of coverage after the calendar year deductible is satisfied. After the coinsurance maximum is met, the insurer pays 100% of covered expenses for the remainder of the calendar year.

OUT-OF-POCKET MAXIMUM*

The out-of-pocket maximum is a specific limit on the amount of covered expenses you pay per calendar year. When an individual out-of-pocket maximum level has been reached, that individual no longer pays deductible or coinsurance for the remainder of that calendar year. Out-of-pocket expenses for all family members contribute to meeting the family out-of-pocket maximum. Once the family out-of-pocket maximum has been met, none of the family members pay deductible or coinsurance for the remainder of that calendar year.

Non-network deductibles and coinsurance amounts credit toward both the network and non-network out-of-pocket maximums. The network deductible and coinsurance apply only to the network out-of-pocket maximum.

* This insurance plan's deductible and out-of-pocket levels are intended to satisfy government rules applicable to HDHPs. The rules may change annually. Deductible and out-of-pocket levels may be adjusted at the beginning of each year to stay within these rules. We'll notify you of any changes as soon as reasonably possible.

BILLING OPTIONS

When you choose a MedOne HSAVings insurance plan design, you have the option to have annual, semiannual, or quarterly direct billing or list billing. Monthly and other mode of payments can be made by automatic bank draft withdrawals. Credit Cards (VISA®, Discover®, or MasterCard®) will also be accepted for the first month premium only.

MAXIMUM ALLOWABLE CHARGE

We use a number of national standards to determine maximum amounts payable for medical services. If charges from a non-network provider are above these maximum amounts, the insured person may be subject to additional charges (above coinsurance).

INSURANCE PLAN PROVISIONS

Pre-existing Condition Limitation

All medical insurance plans include a pre-existing condition limitation.

A pre-existing condition means (1) a condition for which a person received medical care, treatment, services, medication, diagnosis, or consultation 12 months before the insured person's effective date of coverage or (2) a condition that produced symptoms that are distinct and significant enough to establish the onset of a condition or that the condition manifested itself, where a person learned in medicine would be able to diagnose the condition because of those symptoms, or where the symptoms would cause an ordinarily prudent person to seek diagnosis or treatment. Pre-existing conditions are covered after a period of 12 months, during which time the person has been continuously covered under the Policy.

We will waive the pre-existing limitation for conditions that are fully and completely disclosed on the application; however, we may place an exclusion or impairment rider on a certain condition(s) as allowed by state law.

Rating and Renewability

Premium rates are calculated based on a variety of factors. As allowed by state law, these factors may include geographic location, provider network, distribution channels, selected benefits, age, gender, tobacco use, classes, health status of you and your insured dependents, the length of time you are insured under the insurance plan, health status of the entire pool of insureds in which you are included, administrative costs, and other factors. Your initial premium rates are guaranteed for the first 12 months of coverage providing you maintain residence in the same geographic location. Thereafter, we reserve the right to periodically adjust the premium rates charged for your coverage under the Policy. We will provide you with advance written notice a minimum of 60 days prior to the effective date of a premium change, unless state law requires additional notice.

Premiums may also change on the next premium due after the date when:

- You or your insured dependent attain a higher age;
- A dependent is added to or terminated from the insurance plan; or
- Any benefit is changed, including but not limited to, increases or decreases in a benefit, or the addition or removal of a benefit from the insurance plan.

If a premium change is for one of the reasons stated above, we will notify you as soon as possible about the change.

If we find that premiums are incorrect, we will:

- Make a refund to you for any amount of overpaid premiums; or
- Request payment from you for any amount of underpaid premiums.

We reserve the right to adjust administrative and/or service fees. We will notify you prior to any change.

Coverage is guaranteed renewable except when:

- Premium was due and not paid.
- We determine fraud or material misrepresentation under the terms of the contract.
- We do not renew all insurance plans with the same type and level of benefits in the state.
- We no longer sell similar health coverage in a given state.
- You or your dependents no longer reside in the network service area, if covered by a network insurance plan.
- You move to a state where, by law, we are not licensed to do business.
- The group Policy terminates.

You may terminate insurance at any time by providing us written notice prior to the requested termination date. The termination date will be the first of the month. Insurance will terminate at 12:01 a.m. Central Standard Time on the termination date.

Health Insurance Portability and Accountability Act of 1996 (HIPAA)

The Health Insurance Portability and Accountability Act (HIPAA) requires various changes to individual health insurance plans. In Texas, the insurer is required to notify you that you may be an eligible person for coverage from the state-sponsored risk pool. If we decline you coverage, you may be eligible for the Texas Health Insurance Risk Pool. Any person who continues to be a resident of Texas and a citizen of the United States shall be eligible for coverage from the Risk Pool if you have documentation of at least one of the following:

- A written refusal or rejection based on health reasons, by a health carrier, for substantially similar individual hospital, medical or surgical coverage.
- A certification from an agent or salaried representative of a health carrier on the Health Pool's certification form, stating that the agent or representative is unable to obtain substantially similar individual hospital, medical or surgical coverage for you from a carrier represented by the agent because, based on the health carrier's underwriting guidelines, you will be declined for coverage as a result of a medical condition.
- An offer of substantially similar individual hospital, medical or surgical coverage with riders excluding certain health conditions you have (for example, a health carrier will provide coverage to you with an exclusion of coverage of your diabetes, heart disease, cancer, etc.).
- A rate quote from a health carrier offering to provide substantially similar individual health coverage at rates that are higher than the rates of the Health Pool.
- A diagnosis of one of the medical conditions specified by the Board of Directors of the Health Pool.
- Proof that health coverage has been maintained for the previous 18 months with no gap in coverage greater than 63 days, the most recent coverage with an employer-sponsored plan, government plan or church plan.

Each person of a dependent who is eligible for coverage from the pool shall also be eligible for coverage from the pool. In the instance of a child who is the primary insured, resident family members shall also be eligible for coverage.

Reinstatement of Coverage

If your coverage has lapsed for nonpayment of premium, you may be able to apply for reinstatement of coverage (not available in all states). If your coverage lapses and reinstatement is available in your state, you'll receive information about how the process works. Reinstatement is not guaranteed.

SUBROGATION/RIGHT OF REIMBURSEMENT

We subrogate to the extent of our payment when a party causes or is liable to pay for our insured party's injury or sickness. Insureds are required to repay us from any settlement, judgment, or any other payment received from any other source.

PRECERTIFICATION PENALTY

Certain procedures that you or your doctor do not precertify with us are subject to a penalty of 10% of covered eligible charges to a maximum of \$1,000 per confinement, procedure or occurrence.
